INSTRUCTIVO DE OPERACIÓN, CENTROS DE SERVICIO Y PÓLIZA DE GARANTÍA. **ADVERTENCIA:** LÉASE ESTE INSTRUCTIVO ANTES DE USAR EL PRODUCTO.

# DEWALT®

**DCR006**

**12V/20V Max\* Wireless Bluetooth® Speaker**

**Haut-parleur Bluetooth<sup>MD</sup> sans fil, 12 V /20 V max\***

**Altavoz inalámbrico de Bluetooth® de 12V/20V Máx\***

### Definitions: Safety Guidelines

The definitions below describe the level of severity for each signal word. Please read the manual and pay attention to these symbols.

**▲DANGER:** Indicates an imminently hazardous situation which, if not avoided, **will** result in **death or serious injury**.

**▲WARNING:** Indicates a potentially hazardous situation which, if not avoided, **could** result in **death or serious injury**.

**▲CAUTION:** Indicates a potentially hazardous situation which, if not avoided, **may** result in **minor or moderate injury**.

**NOTICE:** Indicates a practice **not related to personal injury** which, if not avoided, **may** result in **property damage**.

IF YOU HAVE ANY QUESTIONS OR COMMENTS ABOUT THIS OR ANY DEWALT TOOL, CALL US TOLL FREE AT: **1-800-4-DEWALT (1-800-433-9258)**.

**WARNING:** To reduce the risk of injury, read the instruction manual.

### General Safety Warnings

**WARNING! Read all safety warnings and all instructions.** Failure to follow the warnings and instructions may result in electric shock, fire and/or serious injury.

**SAVE ALL WARNINGS AND INSTRUCTIONS  
FOR FUTURE REFERENCE**

### Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Unplug this apparatus during lightning storms or when unused for long periods of time.
13. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus

has been exposed to rain or moisture, does not operate normally, or has been dropped.

14. Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus

The lightning flash with arrow head within a triangle is intended to tell the user that parts inside the product are a risk of electric shock to persons.

The exclamation point within a triangle is intended to tell the user that important operating and servicing instructions are in the papers with the appliance.

### **Additional Safety Rules for Bluetooth® Speaker**

- **DO NOT** splash or immerse in water or other liquids.
- Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth®, SIG, Inc. and any use of such marks by DEWALT is under license. Other trademarks and trade names are those of their respective owners.

- This Class B digital apparatus complies with Canadian ICES-003.
- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - 1) This device may not cause harmful interference, and
  - 2) This device must accept any interference received, including interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide

reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and speaker.
  - Connect the equipment into an outlet on a circuit different from that to which the speaker is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- The label on your tool may include the following symbols. The nameplate label is located on bottom of unit. The symbols and their definitions are as follows:

|                              |                             |
|------------------------------|-----------------------------|
| V..... volts                 | A..... amperes              |
| Hz..... hertz                | W..... watts                |
| min ..... minutes            | ~ or AC..... alternating    |
| == or DC... direct current   | current                     |
| Ⓜ..... Class I Construction  | ⧻ or AC/DC... alternating   |
| (grounded)                   | or direct                   |
| □..... Class II Construction | current                     |
| (double insulated)           | n <sub>o</sub> .....no load |
| .../min ..... per minute     | speed                       |
| BPM..... beats per minute    | n .....rated                |

|           |                         |   |              |
|-----------|-------------------------|---|--------------|
| IPM.....  | impacts per minute      |   | speed        |
| RPM.....  | revolutions per minute  | ⊕ | earthing     |
|           |                         |   | terminal     |
| sfpn..... | surface feet per minute | ⚠ | safety alert |
| SPM.....  | strokes per minute      |   | symbol       |

### Important Safety Instructions for All Battery Packs

When ordering replacement battery packs, be sure to include the catalog number and voltage. Consult the chart at the end of this manual for compatibility of chargers and battery packs.

The battery pack is not fully charged out of the carton. Before using the battery pack and charger, read the safety instructions below and then follow charging procedures outlined.

#### READ ALL INSTRUCTIONS

- **Do not charge or use the battery pack in explosive atmospheres, such as in the presence of flammable liquids, gases or dust.** Inserting or removing the battery pack from the charger may ignite the dust or fumes.
- **NEVER force the battery pack into the charger. DO NOT modify the battery pack in any way to fit into a non-compatible charger as battery pack may rupture causing serious personal injury.** Consult the chart at the end of this manual for compatibility of batteries and chargers.
- Charge the battery packs only in designated DEWALT chargers.
- **DO NOT** splash or immerse in water or other liquids.
- **Do not store or use the tool and battery pack in locations where the temperature may reach or exceed 105 °F (40 °C) (such as outside sheds or metal buildings in summer).** For best life store battery packs in a cool, dry location.

**⚠WARNING: Fire hazard.** Never attempt to open the battery pack for any reason. If the battery pack case is cracked or damaged, do not insert into the charger. Do not crush, drop or damage the battery pack. Do not use a battery pack or charger that has received a sharp blow, been dropped, run over or damaged in any way (e.g., pierced with a nail, hit with a hammer, stepped on). Damaged battery packs should be returned to the service center for recycling.

**⚠WARNING: Fire hazard. Do not store or carry the battery pack so that metal objects can contact exposed battery terminals.** For example, do not place the battery pack in aprons, pockets, tool boxes, product kit boxes, drawers, etc., with loose nails, screws, keys, etc. **Transporting batteries can possibly cause fires if the battery terminals inadvertently come in contact with conductive materials such as keys, coins, hand tools and the like.** The US Department of Transportation Hazardous Material Regulations (HMR) actually prohibit transporting batteries in commerce or on airplanes (e.g., packed in suitcases and carry-on luggage) UNLESS they are properly protected from short circuits. So when transporting individual battery packs, make sure that the battery terminals are protected and well insulated from materials that could contact them and cause a short circuit.

#### SPECIFIC SAFETY INSTRUCTIONS FOR LITHIUM ION (Li-Ion)

- **Do not incinerate the battery pack even if it is severely damaged or is completely worn out.** The battery pack can explode in a fire. Toxic fumes and materials are created when lithium ion battery packs are burned.
- **If battery contents come into contact with the skin, immediately wash area with mild soap and water.** If battery liquid gets into the eye, rinse water over the open eye for 15 minutes or until irritation ceases. If medical attention is needed, the battery electrolyte is composed of a mixture of liquid organic carbonates and lithium salts.

- **Contents of opened battery cells may cause respiratory irritation.** Provide fresh air. If symptoms persist, seek medical attention.

**⚠WARNING:** Burn hazard. Battery liquid may be flammable if exposed to spark or flame.

### The RBRC™ Seal

The RBRC™ (Rechargeable Battery Recycling Corporation) Seal on the nickel cadmium, nickel metal hydride or lithium ion batteries (or battery packs) indicate that the costs to recycle these batteries (or battery packs) at the end of their useful life have already been paid by DEWALT. In some areas, it is illegal to place spent nickel cadmium, nickel metal hydride or lithium ion batteries in the trash or municipal solid waste stream and the RBRC program provides an environmentally conscious alternative.

RBRC™, in cooperation with DEWALT and other battery users, has established programs in the United States and Canada to facilitate the collection of spent nickel cadmium, nickel metal hydride or lithium ion batteries. Help protect our environment and conserve natural resources by returning the spent nickel cadmium, nickel metal hydride or lithium ion batteries to an authorized DEWALT service center or to your local retailer for recycling. You may also contact your local recycling center for information on where to drop off the spent battery.

RBRC™ is a registered trademark of the Rechargeable Battery Recycling Corporation.

### Important Safety Instructions for All Battery Chargers

**SAVE THESE INSTRUCTIONS:** This manual contains important safety and operating instructions for battery chargers.

- Before using the charger, read all instructions and cautionary markings on the charger, battery pack and product using the battery pack.

**⚠WARNING:** Shock hazard. Do not allow any liquid to get inside the charger. Electric shock may result.

**⚠CAUTION:** Burn hazard. To reduce the risk of injury, charge only DEWALT rechargeable battery packs. Other types of batteries may overheat and burst resulting in personal injury and property damage.

**NOTICE:** Under certain conditions, with the charger plugged into the power supply, the charger can be shorted by foreign material. Foreign materials of a conductive nature, such as, but not limited to, grinding dust, metal chips, steel wool, aluminum foil or any buildup of metallic particles should be kept away from the charger cavities. Always unplug the charger from the power supply when there is no battery pack in the cavity. Unplug the charger before attempting to clean.

**⚠WARNING:**

- **DO NOT attempt to charge the battery pack with any chargers other than the ones in this manual.** The charger and battery pack are specifically designed to work together.
- **These chargers are not intended for any uses other than charging DEWALT rechargeable batteries.** Any other uses may result in risk of fire, electric shock or electrocution.
- **Do not expose the charger to rain or snow.**
- **Pull by the plug rather than the cord when disconnecting the charger.** This will reduce the risk of damage to the electric plug and cord.
- **Make sure that the cord is located so that it will not be stepped on, tripped over or otherwise subjected to damage or stress.**
- **Do not use an extension cord unless it is absolutely necessary.** Use of improper extension cord could result in risk of fire, electric shock or electrocution.

- **When operating a charger outdoors, always provide a dry location and use an extension cord suitable for outdoor use.** Use of a cord suitable for outdoor use reduces the risk of electric shock.
- **An extension cord must have adequate wire size (AWG or American Wire Gauge) for safety.** The smaller the gauge number of the wire, the greater the capacity of the cable, that is, 16 gauge has more capacity than 18 gauge. An undersized cord will cause a drop in line voltage resulting in loss of power and overheating. When using more than one extension to make up the total length, be sure each individual extension contains at least the minimum wire size. The following table shows the correct size to use depending on cord length and nameplate ampere rating. If in doubt, use the next heavier gauge. The lower the gauge number, the heavier the cord.

| Minimum Gauge for Cord Sets |               |       |                                       |               |                 |               |
|-----------------------------|---------------|-------|---------------------------------------|---------------|-----------------|---------------|
| Ampere Rating               |               | Volts | Total Length of Cord in Feet (meters) |               |                 |               |
|                             |               | 120 V | 25<br>(7.6)                           | 50<br>(15.2)  | 100<br>(30.5)   | 150<br>(45.7) |
|                             |               | 240 V | 50<br>(15.2)                          | 100<br>(30.5) | 200<br>(61.0)   | 300<br>(91.4) |
| More Than                   | Not More Than | AWG   |                                       |               |                 |               |
| 0                           | 6             |       | 18                                    | 16            | 16              | 14            |
| 6                           | 10            |       | 18                                    | 16            | 14              | 12            |
| 10                          | 12            |       | 16                                    | 16            | 14              | 12            |
| 12                          | 16            |       | 14                                    | 12            | Not Recommended |               |

- **Do not place any object on top of the charger or place the charger on a soft surface that might block the ventilation**

**slots and result in excessive internal heat.** Place the charger in a position away from any heat source. The charger is ventilated through slots in the top and the bottom of the housing.

- **Do not operate the charger with a damaged cord or plug.**
- **Do not operate the charger if it has received a sharp blow, been dropped or otherwise damaged in any way.** Take it to an authorized service center.
- **Do not disassemble the charger; take it to an authorized service center when service or repair is required.** Incorrect reassembly may result in a risk of electric shock, electrocution or fire.
- **Disconnect the charger from the outlet before attempting any cleaning. This will reduce the risk of electric shock.** Removing the battery pack will not reduce this risk.
- **NEVER** attempt to connect 2 chargers together.
- **The charger is designed to operate on standard 120V household electrical power. Do not attempt to use it on any other voltage.** This does not apply to the vehicular charger.

## Chargers

Your speaker uses a DEWALT charger. Be sure to read all safety instructions before using your charger. Consult the chart at the end of this manual for compatibility of chargers and battery packs.

## Charging Procedure (Fig. 1)

1. Plug the charger into an appropriate outlet before inserting the battery pack.

FIG. 1

2. Insert the battery pack (L) into the charger, as shown in Figure 1, making sure the pack is fully seated in charger. The red (charging) light will blink continuously, indicating that the charging process has started.
3. The completion of charge will be indicated by the red light remaining ON continuously. The pack is fully charged and may be used at this time or left in the charger.

### Indicator Light Operation

#### DCB101

#### DCB107, DCB112

### Charge Indicators

This charger is designed to detect certain problems that can arise. Problems are indicated by the red light flashing at a fast rate. If this occurs, re-insert the battery pack into the charger. If the problem persists, try a different battery pack to determine if the charger is working properly. If the new pack charges correctly, then the original pack is defective and should be returned to a service center or other collection site for recycling. If the new battery pack elicits the same trouble indication as the original, have the charger and the battery pack tested at an authorized service center.

#### HOT/COLD DELAY DCB101

This charger has a hot/cold delay feature: when the charger detects a battery that is hot, it automatically starts a delay, suspending charging until the battery has cooled. After the battery has cooled, the charger automatically switches to the pack charging mode. This feature ensures maximum battery life. The red light flashes long, then short while in the hot/cold delay mode.

#### DCB107, DCB112

The DCB107 and DCB112 chargers have a hot/cold delay feature. When the charger detects a battery that is hot, it automatically delays charging until the battery has cooled. When the charger detects a battery that is cold, it automatically delays charging until the battery has warmed.

The red light will continue to blink, but a yellow indicator light will be illuminated during this operation. Once the battery has cooled, the yellow light will turn off and the charger will resume the charging procedure.

#### LEAVING THE BATTERY PACK IN THE CHARGER

The charger and battery pack can be left connected with the charge indicator showing Pack Charged.

**WEAK BATTERY PACKS:** Weak batteries will continue to function but should not be expected to perform as much work.

**FAULTY BATTERY PACKS:** This charger will not charge a faulty battery pack. The charger will indicate faulty battery pack by refusing to light or by displaying problem pack or charger.

**NOTE:** This could also mean a problem with a charger.

#### **PROBLEM POWER LINE (DCB101)**

Some chargers have a Problem Powerline indicator. When the charger is used with some portable power sources such as generators or sources that convert DC to AC, the charger may temporarily suspend operation, flashing the red light with two fast blinks followed by a pause. This indicates the power source is out of limits.

### **Wall Mounting**

#### **DCB107, DCB112**

These chargers are designed to be wall mountable or to sit upright on a table or work surface.

If wall mounting, locate the charger within reach of an electrical outlet. Mount the charger securely using drywall screws at least 1" (25.4 mm) long, screwed into wood to an optimal depth leaving approximately 7/32" (5.5 mm) of the screw exposed.

### **Important Charging Notes**

1. Longest life and best performance can be obtained if the battery pack is charged when the air temperature is between 65 °F and 75 °F (18°–24 °C). DO NOT charge the battery pack in an air temperature below +40 °F (+4.5 °C), or above +105 °F (+40.5 °C). This is important and will prevent serious damage to the battery pack.
2. The charger and battery pack may become warm to the touch while charging. This is a normal condition, and does not indicate a problem. To facilitate the cooling of the battery pack after use,

avoid placing the charger or battery pack in a warm environment such as in a metal shed or an uninsulated trailer.

3. A cold battery pack will charge at about half the rate of a warm battery pack. The battery pack will charge at that slower rate throughout the entire charging cycle and will not return to maximum charge rate even if the battery pack warms.
4. If the battery pack does not charge properly:
  - a. Check operation of receptacle by plugging in a lamp or other appliance;
  - b. Check to see if receptacle is connected to a light switch which turns power off when you turn out the lights;
  - c. Move the charger and battery pack to a location where the surrounding air temperature is approximately 65 °F–75 °F (18°–24 °C);
  - d. If charging problems persist, take the apparatus, battery pack and charger to your local service center.
5. The battery pack should be recharged when it fails to produce sufficient power on jobs which were easily done previously. DO NOT CONTINUE to use under these conditions. Follow the charging procedure. You may also charge a partially used pack whenever you desire with no adverse effect on the battery pack.
6. Foreign materials of a conductive nature such as, but not limited to, grinding dust, metal chips, steel wool, aluminum foil, or any buildup of metallic particles should be kept away from charger cavities. Always unplug the charger from the power supply when there is no battery pack in the cavity. Unplug the charger before attempting to clean.
7. Do not freeze or immerse the charger in water or any other liquid.

**⚠WARNING:** Shock hazard. Don't allow any liquid to get inside the charger. Electric shock may result.

**⚠ WARNING:** Burn hazard. Do not submerge the battery pack in any liquid or allow any liquid to enter the battery pack. Never attempt to open the battery pack for any reason. If the plastic housing of the battery pack breaks or cracks, return to a service center for recycling.

### Storage Recommendations

1. The best storage place is one that is cool and dry, away from direct sunlight and excess heat or cold.
2. For long storage, it is recommended to store a fully charged battery pack in a cool dry place out of the charger for optimal results.

**NOTE:** Battery packs should not be stored completely depleted of charge. The battery pack will need to be recharged before use.

### SAVE THESE INSTRUCTIONS FOR FUTURE USE

### COMPONENTS (Fig. 2)

**⚠ WARNING:** Never modify the apparatus or any part of it. Damage or personal injury could result.

- |                              |                   |
|------------------------------|-------------------|
| A. Power button              | F. AUX audio port |
| B. LED indicator light       | G. USB power port |
| C. Bluetooth® pairing button | H. AC power input |
| D. Pause button              | I. Battery port   |
| E. Volume buttons +/-        | J. Carry handle   |

### INTENDED USE

This DEWALT Bluetooth® speaker is designed to play/stream audio via a wireless Bluetooth® connection or wired connection to a mobile phone or other audio device.

**DO NOT** use under wet conditions or in presence of flammable liquids or gases.

FIG. 2

**DO NOT** let children come into contact with the apparatus. Supervision is required when inexperienced operators use this apparatus.

## OPERATION

**⚠ WARNING:** To reduce the risk of serious personal injury, turn apparatus off and unplug or remove the battery pack before making any adjustments or removing/installing attachments or accessories.

The speaker can operate off of DC power (a battery pack) or with an AC power adapter plug. To power the speaker using the AC adapter, plug the adapter into the appropriate outlet and connect it to the speaker via the AC power input (Fig. 3, H). Battery pack will not charge when AC adapter is plugged in.

FIG. 3

## Installing and Removing the Battery Pack (Fig. 4)

**NOTE:** For best results, make sure your battery pack is fully charged.

To install the battery pack (L) into the battery port (I), align the battery pack with the rails on the sides of the port and slide the battery in until the battery pack is firmly seated. Be sure that it does not disengage.

FIG. 4

To remove the battery pack from the apparatus, press the release button and firmly pull the battery pack out of the port. Insert it into the charger as described in the charger section of this manual.

## FUEL GAUGE BATTERY PACKS (FIG. 5)

Some DEWALT battery packs include a fuel gauge which consists of three green LED lights that indicate the level of charge remaining in the battery pack.

To actuate the fuel gauge, press and hold the fuel gauge button (K). A combination of the three green LED lights will illuminate designating the level of charge left. When the level of charge in the battery is below the usable limit, the fuel gauge will not illuminate and the battery will need to be recharged.

**NOTE:** The fuel gauge is only an indication of the charge left on the battery pack. It does not indicate apparatus functionality and is subject to variation based on product components, temperature and end-user application.

For more information regarding fuel gauge battery packs, please call 1-800-4-DEWALT (1-800-433-9258) or visit our website [www.dewalt.com](http://www.dewalt.com).

FIG. 5

### Functionality (Fig. 6, 7)

Audio can be played through the speaker via a wireless Bluetooth® connection to a compatible Bluetooth® device or by connecting audio device or mobile phone using a 1/8" (3.5 mm) audio cable to the audio port (F).

FIG. 6

### POWERING THE SPEAKER ON AND OFF (FIG. 7)

Pressing the power button (A) will turn the speaker on or off. When turned on, the LED indicator (B) will indicate the speaker's status.

Upon initial use, the speaker will require pairing. To pair speaker to a Bluetooth® device refer to **Pairing Speaker with a Bluetooth® Audio Device**.

### LED SPEAKER STATUS INDICATOR

| LED indicator                          | Status/Mode   |
|--|---|
| Steady blinking (half second interval) | Speaker is unpaired or in connecting mode.                  |
| Rapid Blinking                         | Speaker is in pairing mode and discoverable by your device. |
| Solid light                            | Speaker is connected with a device.                         |
| No light                               | Speaker has timed out and/or is off.                        |

FIG. 7

### PAIRING SPEAKER WITH A BLUETOOTH® AUDIO DEVICE (FIG. 6, 7)

1. Place the speaker and the Bluetooth® audio source within 3.3' (1 m) of each other.
2. Turn speaker on by pressing the power button (A). The LED (B) will light solid for 4 seconds to indicate the apparatus powered on successfully and then go into a half second interval blink pattern.
3. Press the Bluetooth® pairing button (C). The LED indicator light blinks rapidly indicating the speaker is in pairing mode and is discoverable by your Bluetooth® device.
4. Confirm pairing on your device. (Please consult your device's instruction manual for specific pairing instructions.)

**NOTE:** If pairing is not confirmed within 2 minutes, the LED will stop flashing and the speaker will return to half second interval blink pattern.

5. Once pairing is successful the LED indicator (B) will turn solid and the speaker will emit a short tone. The speaker will now play music from your device.

### CONNECTING A PREVIOUSLY PAIRED BLUETOOTH® AUDIO DEVICE (FIG. 1, 7)

If a Bluetooth® device has been previously paired to the speaker it should automatically reconnect when speaker is powered on. After 4 seconds the speaker will go into connecting mode. This is indicated by the LED (B) blinking steady. Once the previously paired Bluetooth® device is recognized and connected, the LED will go solid. If connection does not occur and you are unable to stream music please follow the instructions for **Pairing Speaker with a Bluetooth® Audio Device**.

### ADJUSTING THE SPEAKER VOLUME (FIG. 7)

The speaker volume can be decreased or increased by using the corresponding volume buttons (E). Pressing the "VOL +" button increases the volume. Pressing the "VOL -" decreases the volume.

The pause button (D) can silence the speaker at any volume by being pressed once. Pressing the pause button again will unpause the speaker. The speaker will emit a tone when the maximum or minimum volume is reached.

### TIMEOUT FUNCTIONALITY (FIG. 1)

To conserve battery life the speaker is designed to power off automatically after an hour of inactivity. This inactivity could be due to the device being unpaired for an hour or in the case of the Bluetooth® connection being broken for the same period of time. If the speaker powers off due to inactivity of any kind refer to **Connecting a Previously Paired Bluetooth® Audio Device**.

**NOTE:** Optimum Bluetooth® streaming range is roughly 30 ft (9 m) (line of sight) to the speaker but distances up to 100 feet (30 m) are possible. Physical obstacles, other wireless devices or electromagnetic devices may affect the connection quality.

If Bluetooth® connection is lost due to exceeding time of separation, exceeding the optimum distance, obstacles or otherwise, reconnecting your device with the speaker may be necessary.

### CHARGING A CELL PHONE OR AUDIO DEVICE VIA USB (FIG. 1)

Your audio device or mobile phone can be charged using the USB power port (G) on the speaker. This charging is possible when unit is on, running off of AC plug power or the battery pack.

## Important Bluetooth® Speaker Notes

1. When receiving a phone call on a mobile phone which is streaming to the Bluetooth® speaker, music playback stops. After phone call is finished, music resumes playing.

### PHONE CALL AUDIO THROUGH BLUETOOTH SPEAKER

Depending on your device it may be possible to have the audio from a phone call play through the Bluetooth® Speaker. This is dependent on the device and the way the device's settings are configured. Please refer to the device's owner's manual for capability and settings information.

2. Due to the characteristics of Bluetooth® technology, the sound heard through the Bluetooth® speaker is slightly delayed from the sound played on your audio device or mobile phone while talking on a phone call or streaming music.

## MAINTENANCE

**⚠ WARNING:** To reduce the risk of serious personal injury, turn apparatus off and unplug or remove the battery pack before making any adjustments or removing/installing attachments or accessories.

### Cleaning

**⚠ WARNING:** Never use solvents or other harsh chemicals for cleaning the non-metallic parts of the apparatus. These chemicals may weaken the plastic materials used in these parts. Use a cloth dampened only with water and mild soap. Never let any liquid get inside the apparatus; never immerse any part of the apparatus into a liquid.

## Accessories

**⚠ WARNING:** Since accessories, other than those offered by DEWALT, have not been tested with this product, use of such accessories with this tool could be hazardous. To reduce the risk of injury, only DEWALT recommended accessories should be used with this product.

Recommended accessories for use with your tool are available at extra cost from your local dealer or authorized service center. If you need assistance in locating any accessory, please contact DEWALT Industrial Tool Co., 701 East Joppa Road, Towson, MD 21286, call 1-800-4-DEWALT (1-800-433-9258) or visit our website: [www.dewalt.com](http://www.dewalt.com).

## Repairs

To assure product SAFETY and RELIABILITY, repairs, maintenance and adjustment (including brush inspection and replacement) should be performed by a DEWALT factory service center, a DEWALT authorized service center or other qualified service personnel. Always use identical replacement parts.

## Register Online

Thank you for your purchase. Register your product now for:

- **WARRANTY SERVICE:** Registering your product will help you obtain more efficient warranty service in case there is a problem with your product.
- **CONFIRMATION OF OWNERSHIP:** In case of an insurance loss, such as fire, flood or theft, your registration of ownership will serve as your proof of purchase.

- **FOR YOUR SAFETY:** Registering your product will allow us to contact you in the unlikely event a safety notification is required under the Federal Consumer Safety Act.

Register online at [www.dewalt.com/register](http://www.dewalt.com/register).

### **Three Year Limited Warranty**

DEWALT will repair, without charge, any defects due to faulty materials or workmanship for three years from the date of purchase. This warranty does not cover part failure due to normal wear or tool abuse. For further detail of warranty coverage and warranty repair information, visit [www.dewalt.com](http://www.dewalt.com) or call 1-800-4-DEWALT (1-800-433-9258). This warranty does not apply to accessories or damage caused where repairs have been made or attempted by others. This warranty gives you specific legal rights and you may have other rights which vary in certain states or provinces.

In addition to the warranty, DEWALT tools are covered by our:

#### **1 YEAR FREE SERVICE**

DEWALT will maintain the tool and replace worn parts caused by normal use, for free, any time during the first year after purchase.

#### **90 DAY MONEY BACK GUARANTEE**

If you are not completely satisfied with the performance of your DEWALT Power Tool, Laser, or Nailer for any reason, you can return it within 90 days from the date of purchase with a receipt for a full refund – no questions asked.

**LATIN AMERICA:** This warranty does not apply to products sold in Latin America. For products sold in Latin America, see country specific warranty information contained in the packaging, call the local company or see website for warranty information.

**FREE WARNING LABEL REPLACEMENT:** If your warning labels become illegible or are missing, call 1-800-4-DEWALT (1-800-433-9258) for a free replacement.
